

Collaborating with Youth and Families to Create Successful Transitions to Adult Health Care

Thursday, March 8, 2012
1:00 – 2:30 pm (EST)

This webinar will identify and describe promising practices and practical methods for preparing adolescents and their families for the move to adult care and for working with adult-oriented providers. Content will include lessons learned in pediatric primary settings, care coordination strategies, mechanisms for integrating transition into the patient- and family-centered medical home model and examples of useful resource materials, including checklists, measurement tools, training materials, and tip sheets.

FEES

\$249 per call-in line

(A group may participate in the same room with you on this call-in line.)

\$199 for Pinwheel Sponsors

(Please call the Institute for details.)

REGISTER NOW! SPACE IS LIMITED

WHO SHOULD ATTEND?

Pediatric primary and specialty care providers, nurses, social workers, pediatric psychologists, hospital/clinic directors and managers (risk management, quality improvement, child life specialists, hospital school teachers; professionals-in-training, patients and family members, and patient-family advisors and advocates

Participants will receive a General Certificate of Participation for 1.5 hours.

WEBINAR FACULTY

Joanna Kaufman, RN, MS, is the Information Specialist at the Institute for Patient- and Family-Centered Care. She has more than 20 years of pediatric clinical and patient- and family-centered care experience gained in the trenches of Strong Memorial Hospital, Charity Hospital of New Orleans, and Johns Hopkins Hospital. Joanna is the former Executive Director of a SPRANS Project (Special Project of Regional and National Significance) funded by the Department of Health and Human Services Bureau of Maternal/Child Health and is the former Vice-President of Quality Management for a managed care organization exclusively serving children with special health care needs. She serves as a reviewer for the Journal of Adolescent Medicine and was a board member for both the Case Management Society of America and the National Association for Home Care.

John Reiss, PhD, is Director of the Health Care Transition Initiative at the University of Florida's Institute for Child Health Policy. Trained as a Counseling Psychologist, John has worked on ways to improve the organization and delivery of patient- and family-centered care for children, youth, and young adults with chronic health conditions for more than 25 years.

WEBINAR OBJECTIVES

- Identify activities that adolescents and their families should carry out as part of their transition to adult care;
- Identify strategies that health care professionals can use to facilitate an adolescent's transition to adult care; and
- Identify effective resource materials and how they can be used to facilitate successful transitions.
